NIPSIC STILL AFLOAT.

Advices From Samoa Disprove the Late Report.

Affairs Unusually Quiet on the Samoan Islands.

Germany's Declaration of Martial Law Withdrawn.

Men-of-War Still Lingering to Watch Events.

Nipsic Still Afloat.

AUCKLAND, March 14.—Advices just received from Samoa show that there was no basis for the sensational rumor of an engagement between the Nipsic and the German corvette Olga. Far from this, the German officials in the island have entirely given up their aggressive policy. The proclamation of martial law has been publicly withdrawn, and the Germans have abandoned all claim to the right of searching incoming vessels for contraband of war. Both these steps have met with the hearty approval of all the foreign residents at Apia and have had a quieting effect. General tranquillity prevails throughout the island. Mataafa, however, has a force of troops estimated to be six thousand strong. Tamasese's army consists of [illegible] hundred men. The ships of war, both German and American, still remain at Apia ready for any emergency that may arise.

[illegible]

WASHINGTON, March 14.—For some minutes after the reading of yesterday's journal the senate sat without any business being brought before it, then a motion was made by Edmunds and agreed to that when adjournment took place today it would be till Monday. That arrangement having been made the senate proceeded to the consideration of executive business.

The following nominations were received from the president:

J. S. Clarkson, of Iowa, for first assistant postmaster general.

Lewis Wolfley, of Texas, for governor of Arizona.

Elbert D. Weed for United States district attorney of Montana.

Jeremiah Sullivan for collector of customs for the district of Montana and Idaho.

William Wallace for postmaster at Indianapolis.

James M. Kellogg for postmaster at Wickes, Montana.

The nomination of J. S. Clarkson was confirmed.

While the senate was sitting with closed doors, Gibson's resolution for the appointment of a committee on the relations of the United States with Canada and Central America was taken up. After some debate further consideration was postponed and the senate adjourned till Monday.

Vigilance Foreign [illegible]

ST. PAUL, March 14.—In the state legislature yesterday a resolution was introduced by Speaker Graves relating to the foreign policy of the general government. The preamble recites:

WHEREAS, the cause of patriotism is advanced by the knowledge that the national flag is seen all over the world, and the time is ripe for the commerce of eastern nations to move westward to and through the United States; Therefore, this legislature,

Resolves, that the general government [illegible] foreign policy, that the United States should compete for the commerce of the world that money should be appropriated from the treasury for the construction and operation of steamship lines from New York to Europe and South America, and also from San Francisco and Tacoma to Japan and Australia, that the sea coast fortifications should be strengthened and multiplied; that the treaty rights of the United States should be religiously observed; that there is cause for deep solicitude regarding the acts of Germany in the matter of late Samoan affairs inasmuch as the blow of the Germans seems to be aimed at the commerce of the United States and not at the savages of the Samoan islands.

The representatives of the state in congress are instructed to use their influence in carrying out the [illegible]

ST. LOUIS, March 14.—The statement comes from Vicksburg, Miss., that a syndicate composed of C. P. Huntington, Mrs. Hopkins, wife of the late million aire, and Leland Stanford have bought a million acres of land in Lower California and are buying more. Their object is said to be to develop that section of the country, and a part of the scheme is the building of thirteen hundred miles of railroad, some of which is now being built. When the engineering party were surveying the route, they struck gold on this property, and this, it is alleged, has decided Huntington to dispose of all his railroad property east of the Mississippi river and concentrate all his interests in the far west.

[illegible] to be Refused.

GLOUCESTER, Mass., March 14.—Reports from Newfoundland say that the issue of licenses to American vessels for the purchase of bait and other articles of outfit will be refused this season, and the government will coincide with that of the Dominion government in its policy. The reason alleged is that American vessels last season violated the licenses given them and that bait purchased in New Foundland was sold to the French at St. Pierre. Fishermen recently returned from Fortune and Placentia bays say that cutters are already patrolling the coast and every port is strictly guarded so that no violation of the bait act can be accomplished.

[illegible] Lynched.

TYLER, Va., 14.—The negro, Marquder Fletcher, who criminally assaulted Mrs. MacCrady several days ago, was lynched last night by a party of about [illegible] men. They demanded the keys of the jailer, who delivered them. The lynchers took Fletcher out, locked the jail and returned the keys and took the negro a mile and a half and hanged him to a tree, after mutilating him. The coroner's jury found that he was killed by unknown men.

The Application Forged

BUFFALO, March 14.—The officers of the Buffalo [illegible] President Cleveland [illegible] that the signature to the application for the British postmastership was a forgery.

Schuyler Abroad

WASHINGTON, March 14.—Lucius Schuyler, the nominee for assistant secretary of state, is not present in Italy and is not expected to arrive in Washington for at least a month. Meanwhile Walter C. Howe is occupying the assistant secretary's desk.

Samoan Conference Delegates

WASHINGTON, March 14.—John A. Kasson of Iowa, William Walter Phelps of New Jersey and George H. Bates of Delaware have been appointed commissioners to represent the United States at the conference to be held at Berlin concerning affairs in the Samoan islands.

[illegible] Still Afloat

WINNIPEG, March 14.—The rumor that Lord Lansdale, who is now exploring British Columbia, has started to Dawson [illegible] Lansdale's not within the [illegible] the two trappers are said to have starved to death, and no unfavorable reports have been received from him.

Meeting of Wheelmen

DENVER, March 14.—A large number of wheelmen held a meeting at the club room of the Denver Bicycle last evening and perfected the organization of the league of western cyclists. The officers for the first three months are: W. I. Van Horn, president, R. Gerwing, secretary and W. E. Perkins, treasurer.

Weather Indications

WAR DEPARTMENT,
WASHINGTON, D.C., Mch. 14, 10 p. m.

Indications for twenty-four hours commencing Friday, March 15, at 7 a. m.: For Colorado—Light rain, turning into snow, colder, followed by stationary temperature, northerly winds.

His Throat Cut.

CLARKSVILLE, Ark., March 14.—J. P. Underwood, a prominent planter, was assaulted to-day by John Wellford, a tenant, who fired two loads from his shot gun at Underwood and then used his gun as a club. Underwood finally succeeded in getting near enough and cut Wellford's throat from ear to ear. Underwood's left shoulder was shot off.

Reception

WASHINGTON, March 14.—At noon the president formally received the members of the diplomatic corps. They first assembled at the state department in resplendent [illegible] uniforms, where they were presented to Blaine, who accompanied them to the president. The latter received them in the blue parlor. The reception was informal and lasted half an hour.

Suicide with Morphine

KANSAS CITY, March 14.—Adolph Mafay, alias John McKenzie, committed suicide last night by taking morphine. He was 52 years old and was en route from Phoenix, Arizona, to New York, where his son is employed. While in Denver he [illegible] money over $10,000, by buffalo men, and it is supposed that the loss drove him temporarily insane.

[illegible]

LONDON, March 14.—The imperial government agrees to join the dominion of Canada in subsidizing the fortnightly steamship mail service to China and Japan from Victoria, B. C. The governments of Australia and New Zealand will also subsidize this service in order to secure its extension to Auckland and Australian ports. The subsidies for the Atlantic and Pacific services will amount to $1,250,000 per annum. It is proposed to form an independent company to carry on both lines.

Creditors Meet.

PHILADELPHIA, March 14.—The creditors of the Reading Iron works held a meeting this afternoon. The committee on appraisement made a rough report of the result of their work in which they gave the total liabilities at $1,975,959 instead of $1,927,783 as reported last week. The assets are valued at $2,091,247. The balance of the assets over and above the liabilities is given at $215,788. After some discussion it was resolved to submit to the creditors a plan which contemplates an uninterrupted continuance of business as the most advisable course for the interests of the creditors.

Stock Market.

NEW YORK, March 14.—The stock market was dull and weak to-day but outside of a few leading shares there was nothing of interest in the transactions. The market turned entirely upon the course of the St. Paul and the united strength shown in that stock rallied the list. The bears seemed to have everything in their own hands. The close was quiet and weak.

[illegible] Legislature.

SENATE.

DENVER, March 14.—In the senate today the senate bill to establish a state home and industrial school for girls was laid on the table as were a number of other bills of minor importance.

In committee of the whole S. B. No. 96, providing for the analysis of the mineral [illegible] and thermal springs of the state and the publishing of a report was referred to the revision committee.

The senate then having finished the calendar, took up and corrected the errors which existed in the bills creating the counties of Bent and Tioga and then adjourned.

HOUSE.

The committee on Indian affairs reported favorably upon the bill for the relief of the sufferers from the Ute war, and it was referred to the committee of the whole.

The bill to pay bounties for the killing of mountain lions, bears and coyotes was referred to the committee of the whole with recommendations that it [illegible].

S. B. No. 118 to regulate the purchase of ore was also referred with recommendations that it pass. It is designed for the protection of purchasers of ore from miners whose ownership is in dispute.

Wilson's high license bill was reported with the recommendation that it [illegible].

BOILER EXPLOSION.

R. Monroe & Son's Boiler Works Completely Wrecked.

Five Dead Bodies Taken From the Ruins of Debris.

The Brown-Mitchell Prize Fight in California.

Young Mitchell Wins Pacific Coast Championship.

Fatal Explosion

DENVER, March 14.—A boiler at the boiler works of L. Monroe & Son exploded shortly after noon to-day completely wrecking the plant and burying a number of men in the ruins. The work of rescuing the dead and wounded from the mass of debris was begun at once and continued all the afternoon. Five dead bodies have been taken out.

Seven men were injured, a number of them quite seriously, one of whom is in a dangerous condition and will probably die. The list of the killed is as follows: Geo. Linnehan, engineer, James Carter, Jacob Rheindeamen, Charles Aubenback and Daniel Clark, a boiler maker. The cause of the explosion is a mystery and no investigation has been made as yet. Everyone spoken to on the subject expressed confidence in the engineer and agreed that he was a careful and competent man. The boiler had been in use for eight years.

The building was a large one story brick. Nothing remains but a mass of brick, [illegible] and timber. The loss is $20,000. The concussion shattered windows and damaged houses three blocks away.

Brown-Mitchell Fight.

SAN FRANCISCO, March 14.—Brown and Mitchell were in fine condition when they appeared in the ring last night. Brown weighing 155 pounds and Mitchell 150. Brown looked a trifle nervous, while Mitchell carried himself confidently.

In the first round Brown led and the men clinched, but they broke immediately and Mitchell got in a couple of good left handers without receiving any damage. Brown rushed and gave Mitchell a eight-handed blow on the neck, and the round ended with the fighters on even terms.

In the second round both sparred cautiously at long range, and Mitchell, with a clever counter, drew the first blood from Brown's [illegible] but a second later he received a stinger himself. Mitchell had a little the best of the round.

In the third round Mitchell did a little rushing, this time forcing Brown against the ropes, but [illegible] little damage. Some fierce fighting followed, a number of hard blows being exchanged. Brown bled profusely, and his chest was covered with the red stuff. At the end of the round Brown's nose and lips were swollen badly, while Mitchell was apparently without a scratch.

From the fourth to the tenth round Mitchell pursued his rushing tactics, but no telling blows were struck.

In the seventh round Mitchell was thrown heavily in a clinch and claimed a foul, but it was not allowed.

In the tenth round Mitchell forced his opponent in a corner and got in a stinger on his ear. Brown coveted and returned the compliment.

Brown, fight as the gong rang for time, rushed, and with his right caught Mitchell in the face.

In the eleventh round Brown caught Mitchell under the chin with his left, lifting him off his feet. Mitchell then did some terrible rushing, pounding Brown all over the ring, and Brown claimed a foul, which was not allowed.

In the fifteenth round Brown was mad and he rushed frantically, throwing Mitchell heavily. Stagging was then in order, Brown taking terrible punishment but giving some in return.

In the eighteenth round Brown hit Mitchell a staggering blow in the mouth but he got two in return. Brown was now getting groggy and he looked like a beaten man at the end of the round.

In the twentieth round Mitchell got in some heavy work and he had the sailor knocked out, but time was called in time to save him.

In the twenty-first round Brown was unsteady and Mitchell had everything his own way. He knocked the sailor down repeatedly, and when he came to his feet he made no attempt to defend himself. Mitchell then walked up to him and delivered a terrific right hander on the jaw knocking the Sailor senseless and winning the fight.

Mitchell finished very fresh and without a scratch.

Sale's [illegible]

WASHINGTON, March 14.—During the consideration of Gibson's resolution providing for the appointment of a committee on relations with Canada and Central America Senator Hale made a speech in favor of the appointment of a similar committee on relations with Mexico. If there were any just ground he said for the formation of a committee on relations with Canada the grounds were surely as strong and as imperative in regard to Mexico. Mexico was a republic, the nearest neighbor to the United States and should be made the firm friend of this country. That was the primary object of his resolution. He desired the Mexican people to feel that they people of the United States desired their cordial and fraternal friendship. It was of the [illegible] that [illegible] Mexico should [illegible] to cherish jealousy of the people of the United States, and that statements that grew out of the way by which the United States had come into possession of more than half of the territory.

The friendship of Mexico was needed in order to uphold and maintain across the Isthmus of Panama and in respect to Central America the Monroe doctrine and it was quite as important to the autonomy and freedom of Mexico that that doctrine should be maintained by the United States in the face of the hostile aggression of Germany, France and Great Britain. But independent of that it was important to cultivate friendly relations with the people of Mexico in order to develop American trade with the people of Mexico. The latter republic he said had an area of 742,134 square miles, and extended for several miles along the southern border of the United States, and had a population of nearly

Imprisoned Miners

MOUNT CARMEL, Pa., March 14.—Intense excitement prevails at the Black Diamond colliery where by the falling of the pillars six miners have been closed in. Workmen began drawing a heading at once for the purpose of liberating their imprisoned companions. At four o'clock this afternoon the laborers heard the faint sound of voices. Two hours later they were enabled to hold a conversation with two men who said they were safe. A mass of ragged top rock is hanging over their heads, however, and may fall at any moment. The other four men were cut off from the first two by a second fall of rock, and their fate remains unknown. At a late hour tonight the work of liberating is going on as fast as possible.

[illegible] Colorado Cattle.

KANSAS CITY, March 14.—A buyer for one of the largest Kansas City dressed beef houses to-day made a statement to the effect that the passage of any hostile legislation to packing house interests would be resented by the peculiar means of boycotting the cattle of the state or states enacting the legislation. Colorado has already passed such a law and the buyer said to day: "You may rest assured we will not buy a single bullock that has a Colorado brand on it and the same course will be pursued with other states that pass similar laws." What effect this novel boycott would have was not stated but the buyer affirmed that the boycott would not curtail the operations of the dressed beef trade.

Died of Starvation

AUGUSTA, Ga., March 14.—On February 15th John L. Adams, a cotton factor of Macon, was jailed in that city charged with forgery. He acknowledged his guilt and declared himself done to blame. Crushed and humiliated with a deep sense of his disgrace, he refused to take food after his incarceration. He persisted in his determination and steadily grew weaker. The tears and entreaties of his family and the advice of physicians and the prayers of ministers were unable to move him from his purpose. He died last night of starvation, after twenty six days of fasting.

NORFOLK, Va., March 14.—The American bark Annie Barton, bound from Norfolk to Baltimore with a cargo of phosphate on board, was driven ashore on the Virginia coast this afternoon at 4 10 o'clock during a heavy northeast gale about half a mile north of the Dam Neck life saving station. Capt. Benj. Knight, of Baltimore, the second mate James Richards of Philadelphia, and Peter Florida, John Smith, Ed. Forbes and Charles Hudson, seamen, were lost. The first mate and three sailors were saved.

Sigel Pleads Guilty.

NEW YORK, March 14.—Robert Sigel, son of General Franz Sigel, charged with [illegible] gratuities while clerk in the pension agency here, pleaded guilty before the United States commissioner this afternoon and was remanded for sentence on Thursday. The penalty for the two forgeries specified in his arraignment is twenty years in prison.

[illegible] Rejected

SIOUX CITY, Iowa, March 14.—The schedule for the Western Base Ball association, prepared by the secretary, was rejected at the meeting of managers today because of the opposition of Sioux City to Sunday games. A new committee was appointed to prepare a schedule to be acted upon to-morrow.

[illegible] Denied Admittance

WASHINGTON, March 14.—The president [illegible] a favored few to-day in order that he might attend to official business. He consulted with the secretary of the interior, postmaster general and attorney general in regard to the nominations made to day.

G. A. R. Encampment.

GREELEY, March 14.—The annual encampment of the G. A. R. to-day elected Thomas M. Fisher, of Cheyenne, as commander and J. C. Kennedy, of Denver, senior vice commander. The encampment finished its business and adjourned sine die at 6 o'clock.

REAL ESTATE!

THE WARNER

Don't Go Three Miles Out in the Country for Lots, when you can get them for the Same Money in

PARRISH'S ADDITION!

Only 3 Blocks from Cascade Avenue!

Only 3 Blocks from The Antlers Hotel!

Only 4½ Blocks from Post Office!

THE STREETS IN PARRISH'S ADDITION

Are 100 to 140 feet in width. THE ALLEYS are all 20 feet wide. There are no 60 or 80 feet streets, and narrow, 10-feet alleys, such as are found in other loudly advertised "Additions," with high sounding titles, where you pay high prices for lots, without duly considering that you are throwing away your money.

In the Alley Behind Every Lot in Parrish's Addition

There is a 3-inch Water Pipe, connected at Cheyenne street with a 16-inch main: the Largest in the City's System. THE MAIN CITY DITCH, taking pure, clear water from the Fountain, runs just back of PARRISH'S ADDITION, and within a stone's throw of it.

YOU ARE SURE TO GET WATER

(Both from Pipes and Ditch) in PARRISH'S ADDITION if there is any water in the Fountain, even if other parts of the city are suffering from scarcity of the precious fluid.

REMEMBER THE FOREGOING, and also, when I tell you I will sell you a First-Class

LOT IN PARRISH'S ADDITION FOR $350

To $1,000 a full size lot 50 by 190 feet do not hesitate a moment about buying. You can buy two lots on a corner, and erect pretty little cottages ACROSS THEM, giving each cottage a neat, pretty little yard, and readily rent them, owing to the location, etc.

To Pay You 25 to 35 Per Cent Per Annum on the Entire Investment.

WHERE CAN YOU DO THIS ELSEWHERE?

THE STREET CAR LINE RUNS THROUGH PARRISH'S ADDITION, from East to West, and will doubtless soon be extended to the North, past the "Mesa Road," up to THE ROCK ISLAND SHOPS. *Lots are sold on Terms to Suit Buyers, if possible.*

I AM ALSO SELLING

LOTS IN CALVERT HEIGHTS!

On Easy Terms, and at from $300 to $400. They are in the same relation to

COLORADO CITY,

As do Parrish Addition Lots to Colorado Springs, and

I CAN RECOMMEND THEM AS AN INVESTMENT!

SURE TO PAY A BIG PROFIT

DURING THE COMING YEAR.

CALVERT HEIGHTS!

Is surrounded by growing and progressive enterprises. THE MIDLAND SHOPS lie at its Northeast corner. Colorado City proper is North and Northeast of it. Both Additions join it on the North and Northwest. Colorado Springs itself is in full view, only two miles to the Southeast, and last though not least important,

The Great Glass Manufacturing Works

Are to be erected (at once) just south of CALVERT HEIGHTS. I have arranged to have every lot supplied with PURE WATER IN PIPES.

THE LOCATION IS SUPERB!

THE SURROUNDING VIEWS

ARE MAGNIFICENT!

Last year I recommended you to buy lots in Parrish's Addition, and they have paid a better Profit than any other lots on the market. This year I urge you to add to YOUR INVESTMENT AS MANY LOTS IN CALVERT HEIGHTS as you can afford to buy, with the result that, before the year is out, you will again be glad that you have taken my advice.

CALVERT HEIGHTS! [illegible]

There are not very many lots altogether, and those who apply late may find them all gone, and will have to Pay an Advance.

JOB WORK

The Chicago Times states that there are but two college graduates in the new cabinet, Blaine and Noble. The Times is wrong. The new attorney general graduated from Hamilton college at the head of his class.

The liquor dealers of New Jersey assisted the democrats in their campaign last fall and it is not surprising to hear that the senate has passed the bill repealing the high license law. The vote on the bill was strictly a party vote. Eleven democrats voted for the bill and ten republicans against it.

Ex Consul General Sewall's opinion that the report of the blowing up of the Nipsic is true is of very little value. It is an expression of his hope, rather than his belief. At the time Mr. Sewall was relieved from duty as consul general to Samoa he wrote a letter which was published very generally throughout the country, in which he predicted all kinds of blood-curdling occurrences in Samoa, and he would naturally be glad to see his predictions prove true. But Mr. Sewall is a good deal of a disappointment; The Nipsic is still afloat.

Sports Afield for this week contains a charming story by Beaver's famous sportsman, Rev. Myron Reed, entitled "A Bed of Boughs." The narrative is delightfully written and will no doubt be widely read. Among other interesting articles in the paper are "Fish and Fishing," by William R. Scott, and "The Clumber Spaniel," by Chamber. The base ball department of Sports Afield is to be an especial feature of the paper during the season and those who are interested in the national game will find much that is interesting regarding this form of sport.

Prohibitionists will find an interesting and instructive lesson in the results which have been obtained by high license in Boston. In 1888 there were 2654 saloons while now there are but 700. Boston has tried prohibition again and again, with the result each time that the well kept saloons of the city were closed up while the dens and grog shops frequented by the scum of humanity remained open. The opposite is the case under high license. The grog shops cannot afford to pay the license and are obliged to close their doors while the better class of saloons remain open. Exactly the same results have been experienced in Philadelphia.

Among the ballot reform measures now before the legislatures of many of the states of the union is one recently introduced and passed in the Arkansas senate which, if it becomes law, will give to the democrats entire control of the elections. The bill provides for the appointment of all judges of elections by three commissioners in each county, the latter to be chosen by the governor, auditor and secretary of state. Those officials are now democrats, and the chances are that they will be so for some years to come. The result of such a law as this so called ballot reform measure will be then to deprive the republicans of representation at the polls. Under the present law the county judges choose the election judges, and it is much better that they should continue to do so.

The April number of the Century will be devoted largely to celebrating the centennial of the inauguration of Washington in New York, April 30, 1789. The contents of the number will include "The Inauguration of Washington," by Clarence W. Bowen illustrated with views of New York in 1789, the reception of Washington, portraits of Washington at Mt. Vernon, After the Revolution, Mr. [illegible] "Washington in New York in 1789," by the same author, "Original Portraits of Washington," by Charles Henry Hart and "A Century of Constitutional Interpretation," by Professor John Bach McMaster. Mrs. Harrison's articles are devoted to the social aspect of the subject, and she will describe New York society at the time of the first president. A hundred illustrations will appear in this number of the Century.

On the subject of removals from office the St. Louis Globe-Democrat says:

It is certainly the intention of President Harrison to permit all capable democratic officials to remain in the service of the government for a reasonable period, but it will not be [illegible] before the capital of each postoffice, unless it shall appear that it is incompetent or [illegible]. The country will heartily endorse this [illegible]. Boston, March 14.—The Boston Post contributes to the Sunday news. The American government has ordered the Dolphin, Narragansett and Yorktown to be ready to sail at any moment on possible orders for Chicago. Nine hundred kegs and barrels have been concentrated within the last few hours for double the troops from Newport to horses, well to the Sioux. Officers are in a state of [illegible] notice. Officers are in Vienna discredit the standard [illegible] advices.

THE TRANSCRIPT TELLS.

In Harrisburg, Pa., convention held February 19, in the interests of the constitutional prohibitory amendment, adopted a vigorous platform and appointed a state campaign committee, of which Hon. H. W. Palmer, of Luzerne county, is chairman. The sum of $6,000 was pledged for campaign expenses. A motion was carried approving the action of Mr. Powderly in favor of the amendment, and a resolution was adopted requesting college authorities not to allow their "commencements" to interfere with the prohibition election, students being presumably on the side of moral and political progress.

A [illegible] indication of the Christian and temperance sentiment prevailing among our national law makers is afforded by newspaper reports of last Sunday's proceedings. "Uncle Sam's Beer Garden," referring to the national house in Sunday session, heads the most prominent column of the Monday Inter Ocean. A Virginia senator is described as disgracefully drunk. The Sunday before inauguration is acknowledged to have no significance. The presentation of two petitions concerning the Sunday rest law, one in favor and one opposed, "provoked a ripple of laughter" as well it might. Whisky flowed freely in the House restaurant. Dr. Sunderland, in preaching on "The Sunday Rest Bill," said: "It would be a spectacle, if the members of the first congress who bought 20,000 Bibles for distribution among their people could rise from their graves and look at their successors in yonder capitol."

The Rev. H. S. Taylor of Englewood, recently read a paper favoring woman suffrage before the Baptist ministers of Chicago. In conclusion he apostrophized the Goddess of Liberty, saying: "I would spin her around on her pedestal and let her face inland a while, and I would say to her 'Madame, lift your torch a bit higher and look around you. You will see a great army of American women, the most cultivated and best women on the earth. * * And madame, these women are not greatly given to politics, but they see their country and children in imminent peril. They ask the ballot for their own and their children's protection. Madame, you are only a French lady, and can hardly tell from a live American girls. Still, you have been here long enough to know something about the base ballots of the great republic—honestly, therefore, what do you think? I do not know what effect my eloquence would have upon the copper lady, but if she should be half as much persuaded as I am she would at once put on her celestial robe, lift her torch to the adjacent bay, and allow the stream of poisonous foreign hate and anarchists to land at Castle Garden and put their ballots in the dark."

FOUNTAIN RIPPLES.

FOUNTAIN, March 14

Mr Harness and daughter Ruth will depart in a few days for Falcon

Mrs Ames is slowly recovering from an attack of rheumatism

Mr Buckman, of Maine, who is stopping at the Mitchell House, seems to be improving under the genial sunshine of our Italian climate

The people of this vicinity evince their common sense in "settling down" on such shows as the one which visited our town lately. They add nothing to the moral or intellectual advancement of the community, and relieve it of a few dollars which might be more judiciously expended

We understand that a contract has been awarded Mr Overton by parties having landed interests in this vicinity who intend to explore the ground to a depth of 300 feet, and farther, if the indications warrant the work. The object undoubtedly is to cut a vein of coal which is known to exist at no great distance below the surface. Explorations to the depth of 1,000 or 1,300 feet would develop the capabilities of the valley in three different directions It would discover either coal, water or oil, all three of which are believed to exist. Evidences in regard to the probability of oil being found are accumulating as the subject is developed. As to the coal there seems to be no doubt of underlying vein or veins We are glad to see some one taking steps in this direction but we cannot see why the people who own land surrounding the place should wait for others from a distance to come and develop the ground and reap the reward while they are merely lookers-on. This principle of "hold fast all I give you" is just what retards the development of any country A little vim, push and energy, backed by common sense and judgment is what a country needs to bring it to the front and develop its resources. Let us abandon the idea that the great sources of wealth lie on the surface. The richest sections of the wealthiest states of the union have their sources of wealth beneath the surface. Then let us explore a little and see what we can add to the productive wealth of the state, and at the same time advance our own interests. PROGRESS.

MONUMENT MATTERS

MONUMENT, March 14, 1889.

At a meeting of the citizens of Monument on Saturday evening last the civil engineer a report regarding the Monument lake was read and the question was discussed in a very earnest manner. Twenty-six acres are supposed to be devoted to the formation of the lake, which will require the removal of fifteen thousand cubic yards of earth, at an average of fifteen cents per yard The dam will be from twenty-five to twenty eight feet, and will hold about twenty two feet of water, which will cover an area of thirty acres. The total cost is estimated at seven thousand dollars The committee was instructed to write the Rock Island, Rio Grande and Missouri Pacific railroad companies, also General Adams The object in writing the railroad companies is to interest them in the ice that will form on the lake in winter, which would have an advantage over Palmer Lake, as the trains would not come near enough to throw cinders in the water, as is the case at Palmer Lake, the ice thereby being rendered almost unfit for use. General Adams owns a large amount of land in the vicinity of the lake and would be benefited greatly by the lake. He is willing to aid the people all he can not only for his own benefit, but for the benefit of Monument. A few more men possessed of the enterprise of Messrs Adams and McShane would send the lake along lively. We are given to understand that three prominent citizens of this place will subscribe five hundred dollars each Mr McShane will donate the land and subscribe liberally besides. Another meeting will be called as soon as the answers to the letters sent are received, and the future of the Monument lake will be fully determined. M

At a meeting of the stockholders of the Green Mountain Falls Company held in this city Thursday, Mr J G Garland, of Green Mountain Falls, was elected a member of the board of directors, vice W Foster resigned The directors afterwards elected Mr Charles Sprague general manager. The selection of Mr Sprague as manager of the company is a fitting reward for his efforts in its behalf in the past year. It was largely through his influence that Mr Dow, Mr Woodworth and other capitalists became interested in the company Mr Sprague is an active and pleasant young business man and the company will prosper under his management

The entertainment at the Congregational church last night, consisting of readings by Miss Emma Bobbitt, of New York and instrumental and vocal music by a number of local artists, was well attended. Those present passed a very enjoyable evening. Miss Bobbitt is an accomplished elocutionist, with a most pleasing presence and manner. Her methods are decidedly good, producing effects with very little effort. Her numbers on the programme were selected with rare good taste, being confined to a class of readings which she is particularly well fitted to render. Perhaps the most pleasing [illegible] A A Rudyard and Archie [illegible] Two selections by Mrs Whitney were encored and well received as was also her duet with Mrs [illegible] Miss Nye [illegible] would have been more effective on a better instrument. Altogether the entertainment was very much of a success

NEWSPAPER ARCHIVE®
NEWSPAPER ARCHIVE®

THE GAZETTE.

FRIDAY, MARCH 17, 1889

Mr. John M. [illegible] left for New York on last night's Rock Island train.

Mrs. J. H. Lehr and son left on last night's Santa Fe train for San Diego Cala.

The notarial bond of Theodore H. Lowe was filed in the county clerk's office yesterday.

Mr. John R. Selingman left yesterday via the Midland, to look after his interests on the other side of the Rockies. He will return in May.

Mr. William Sneed, traffic manager of the Rock Island, and family left for their home in Chicago yesterday after a pleasant visit of several weeks [illegible]

The fancy dress skating carnival at Weber hall given by the Matt Hanna Hose company should not be forgotten by numerous evening. A good time is assured all who attend.

A rumor reached the city last night of the burning of a freight car on the Santa Fe road at Monument. The fire was caused by the spilling of a quantity of gasoline and a small amount of freight in the car was destroyed.

Mr. F. E. Otley and Miss Belle Wilcox have [illegible] their friends with the announcement that they were married on the evening of March 5th by the Rev. M. S. Johnson. The ceremony took place at the residence of the bride's father, Dr. J. R. Wilcox.

Mr. Emery P. Moon, of Husted, has furnished us the following record of the weather for the week ending March 15th, 1889: Highest temperature, 61° on the 13th; lowest temperature 19° on the 10th; weekly mean temperature 38.58. Direction of the wind, two days south, two days north, two days variable, and one day west.

President Plumb and Secretary McCreery, of the board of trade, are both absent from the city and it has been impossible for the citizens' committee to confer with them regarding the calling of a meeting of the board on Saturday afternoon to discuss the storage reservoir question, and a number of the committee are in favor of postponing the meeting. The matter will probably be settled today.

Sheriff Jackson arrived at home yesterday with the prisoners, Fulton and Moore, charged with stealing mules near Bijou Basin. They were taken before Justice Whitcomb of Easton yesterday for examination, which they waived, and were placed under bonds of $500 each for their appearance at the next term of the district court. Neither of the men were able to give bonds and they were lodged in the county jail.

The interest at the special services at the Baptist church continues unabated. The sermon last evening to young men was very forcible and there were numerous inquiries after the meeting. Rev. Mr. Henry returns next Monday to continue the meetings through the coming week. Tonight Rev. Mr. Hart will preach, and there will be baptism at the close of the service. No service on Saturday. The pastor will preach on Sunday and expects to baptize candidates in the evening.

The ball game in this city yesterday between the Colorado Springs and Pueblo teams was called at the end of the fourth inning on account of rain. The score at that time stood 4 to 2 in favor of Colorado Springs. The game started in good style with Mann pitching and Wilson catching. Mann was throwing a good game and had evidently started in to repeat his playing of the day before. The most brilliant play made was a running catch by Glenalvin. The Pueblos were throwing wild and the Springs were batting their pitcher hard, so there can be no doubt as to what the result would have been. The clubs meet in Pueblo to-day and to-morrow.

The serious illness of Dr. John F. Hewitt has caused considerable speculation as to whether the race between his horse Matt and James Crossley's horse McLeod will be trotted to-day. Mr. Crossley stated last night that the race will positively come off, or at least his horse would be on the track at the appointed hour. The race is to occur on the Perry Johnson track, beginning at 1 o'clock. J. Scott McCoy, the old driver of McLeod, has arrived from Texas and will drive him in the race. Mr. Crossley states that McLeod will also be speeded a mile heat against any horse in the county, either trotter or pacer, that may be presented in addition to the race. All who attend the race are requested to leave their dogs at home as [illegible] admission fee will be charged.
